Creative Marketing I. Fillis, R. Rentschler, 2005-11-10 Creative Marketing has been written in response to the continued failure to address the theory/practice gap in marketing management. The art world is full of creativity, yet existing marketing theory continues to prescribe formulaic, stepwise processes for marketing success. Rather than perpetuating the belief in the value of traditional marketing frameworks, this book draws on a diverse range of disciplines to inspire entrepreneurial thinking and practice among those marketers who wish to push the boundaries of knowledge and convention. Creative Marketing gets back to how best to support individuals as well as small, medium and micro-enterprises through new marketing approaches.

Marketing Strategy for Creative and Cultural Industries Bonita M. Kolb,2016-01-29 Successful marketing strategies are a vital aspect of any business. This textbook provides students and potential managers in the creative industries with a solid grounding in how to maximize the impact of their marketing efforts across a range of business types in the creative and cultural industries. With a range of learning exercises and real-life examples, this text shows how to create and execute successful marketing plans for creative businesses and is useful for marketing students and practitioners.

Creative Marketing: A New Management Philosophy Robin Luke,2014-11-18 Creative Marketing lifts marketing theory and practice to a higher order, -a third level above Operational and Strategic Marketing. It provides a new mapping structure, rationale, market research methodology and a new unifying philosophical basis. It involves a new and highly proactive approach to superior market value creation. A secondary objective of the text is to draw marketing back into the province of general management, acknowledging that it has for too long been divorced from its roots and thereby become

dominated by an academic perspective. The author argues that the discipline is currently unable to provide any definitive set of strategies that offer some prospect of guaranteed success under all possible market conditions. This is because traditional marketing has been predicated on the basis that incremental improvements in a company's marketing mix is the only way to build and defend some sort of competitive market advantage. In practice, this advantage is often easily and quickly eroded by the actions of competitors. Contrary to this common (organizational development) wisdom, long-term empirical evidence clearly demonstrates that it is the companies that dominate their particular industry, -that in fact ?own? the industry standard, that enjoy the highest profit margins and enjoy the longest periods of largely uncontested market supremacy. Creative Marketing as described in this book offers a means whereby any company can, given sufficient creative imagination, come to dominate its industry, irrespective of its present market status. This is because the processes involved are not contingent upon some sort of technological superiority or extensive financial or other resources. The text provides the methodology for realizing the long-sought ?envelope curve? path of corporate growth and profitability, that means never having to complete an industry life cycle, -perhaps the Holy Grail of Marketing.

Based around three key concepts of creativity, customer experience and customer value, this model provides students with the analytical and decisional tools necessary to succeed in creative industries. Written by an author with a depth of teaching and consulting experience in the field, Marketing in Creative Industries offers invaluable insight into creative and cultural industry marketing. It is an ideal textbook for undergraduate and postgraduate students taking modules in marketing.

How to do Better Creative Work Steve Harrison, 2010-04-08 Effective creative work is not a nice-to-have, it's a necessity - it's the only way you'll stand out in a fiercely competitive marketplace. Whether you're in digital, direct or advertising, the CEO of an agency or just starting out, How to do better creative work has been written for you. In fact, you'll see that everyone plays a crucial role in producing creative work that works: What it means to be creative, How to build a creative culture, How virtually all great work is underpinned by a simple problem/solution dynamic, How to use that dynamic to create your big marketing ideas, How to brief a creative team, How to use 'relevant abruption' to produce big creative ideas, How to simultaneously build a brand and get response, How to sell your work, How to run a creative department. All this is illustrated by some of the best advertising, direct and digital work ever produced, plus 12 case studies featuring ideas that have not only sold millions of pounds worth of products, but also won dozens of the world's most coveted awards. Steve writes like he talks, with great intelligence, wisdom and common sense. He's one of the few people capable of looking at a notoriously self-obsessed industry and saying, The Emperor has no clothes. And he's one of an even smaller number who can look at its problems and say, here's how you fix it. Creative Work is as challenging as it is engaging. When I reached the end I felt like I wanted to continue the conversation, which is probably the highest compliment you can offer a book. - Jon Steel, author of Truth, Lies & Advertising and Perfect Pitch. This is genuinely essential reading for anyone who wants to demystify the advertising creative process - and vastly more entertaining than your average business book. Harrison's simple, commonsense approach makes you wonder why so many ad campaigns fail so spectacularly. Buy it, read it and learn from it!" - Larissa Vince, Campaign magazine. This is a smart, straightforward and very special book. It affirmed so much I knew already, but my eyes were opened afresh to what is genuinely important about the work that we do. I came away with ten or twelve things I wanted to share with the rest of the team at glue and it also fortunately gave me some confidence that we're getting a lot of this right already. - Mark Cridge, CEO, glue London. Steve is one of the dying breed of creative directors that clients crave. He tells it like it is and delivers. How to do better creative work is a refreshingly honest must-read for any client, suit or creative who want to cut through the bullshit and produce great creative work that does the job. Harrison has the right to say what he likes about the ad industry - and he does! - Charlie Smith, Head of Brand Marketing, Vodafone UK. This book isn't just about how clients can help get the best work from their agency. I loved the insight into the thinking that goes on before the creative idea is had and realise it applies to every business that takes a creative approach to problem

solving. - Paul Ferraiolo, President, Rolls-Royce Motor Cars, North America. "If, one day, my son tells me that he wants to be part of this business, I will make sure that he reads Steve's book and, if possible, find a way for him to spend a couple of hours with Steve himself" - Pablo Alzugary, President, Shackleton Madrid.
