Groovy Grad American Greetings,2001 Tow thumbs up high For making the grade. You're a groovy grad Who's got it made!

Was She Pretty? Leanne Shapton,2006-10-31 A SINGULAR EXPLORATION OF MODERN LOVE AND ALL ITS DEMONS, IN WORDS AND DRAWINGS In this brilliant gem of a book, artist/writer Leanne Shapton weaves together a voyeuristic tale of love and life through epigrammatic vignettes and sleek line drawings. Entire relationships are encapsulated in a few, stingingly perfect lines: Colleen was Walter's ex-girlfriend from med school. She loved to dance with men at weddings. Pricking our insecurities, Shapton introduces us to Kim, whose ex kept a drawerful of love letters in a kitchen drawer . . . She would stare at it while she cooked. And Ben's ex, a physiotherapist for the U.S. men's and women's Olympic swim teams. She wore small white shorts year-round. Fascinated by her own jealousy, Shapton interviewed acquaintances about their anxieties and peccadilloes, and the result is a book of surpassing originality: one of those unusual books that comes along to delight us all, like *An Exaltation of Larks* or *Love, Loss, and What I Wore* or *Griffin and Sabine*. *Was She Pretty?* can also share the shelf with the work of the legendary William Steig, whose early, psychologically revealing work inspired Shapton. An unflinching observer of human behavior, she invites us to peer into the hearts and minds of her characters—while reminding us that we shouldn't be surprised if we see ourselves staring right back.

A Poetry Handbook Mary Oliver,1994 With passion, wit, and good common sense, the celebrated poet Mary Oliver tells of the basic ways a poem is built—meter and rhyme, form and diction, sound and sense. Drawing on poems from Robert Frost, Elizabeth Bishop, and others, Oliver imparts an extraordinary amount of information in a remarkably short space. Stunning (Los Angeles Times). Index.

Drawing Futures Bob Sheil,Frédéric Migayrou,Luke Pearson,Laura Allen,2016-11-11 *Drawing Futures* brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now

underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

The Art of Gathering Priya Parker, 2018-05-15 We spend our lives gathering - first in classrooms and then in meetings, weddings, conferences and away days. Yet so many of us spend this time in underwhelming moments that fail to engage us, inspire us, or connect us. We've all sat in meetings where people talk past each other or go through the motions and others which galvanize a team and remind everyone why they first took the job. We've been to weddings that were deeply moving and others that were run-of-the-mill and simply faded away. Why do some moments take off and others fizzle? What's the difference between the gatherings that inspire you and the ones that don't? In *The Art of Gathering*, Priya Parker gets to the heart of these questions and reveals how to design a transformative gathering. An expert on organizing successful gatherings whether in conference centres or her living room, Parker shows us how to create moving, magical, mind-changing experiences - even in spaces where we've come to expect little.
