**The Ridiculously Simple Guide to Google Slides** Scott La Counte,2019-08-19 How many times do you work on a presentation that you will get absolutely no feedback on and want no help? Maybe you're the type that likes to whip something up and have no practice or feedback at all? Most of us are the former. Before we stand in front of a group of people, we want to make sure we're as polished as possible. The problem is PowerPoint wasn't built like that. It was built as a desktop program that one person would use at a time. Google realized the problem and seized the opportunity when they launched Google Slides over ten years ago. Google Slides is a cloud-based presentation editor that can replace PowerPoint or Keynote. If you'd like to get the most out of the software, then let's get started! Note: This book is the Google Slides portion of the larger work: *The Ridiculously Simple Guide to Google Apps (G Suite)*

*Everything Google for Seniors* Scott La Counte,2019-08-26 Google can do pretty much anything--email, word processing, and even hardware. This book will walk you through how to use the most popular Google programs and hardware. It includes Chromebook, Gmail, Google Docs, Google Sheets, and Google Slides.

[Google Apps for Seniors](#) Scott La Counte,2019-08-29 Remember when you used to pay for things?! When computer software was almost as much as your new computer. Times have certainly changed! Today many companies are giving you all that stuff you used to pay hundreds of dollars for—for free! What's the catch? There has to be a catch! Sometimes there definitely is a catch...it's free, but you have to watch a 30 second commercial every five minutes. Or it's free but you have to pay a subscription once you start to really like it. In the case of Google Apps, it truly is free. No annoying ads. No money grabs. Nothing. For the price of nothing you are getting online software that is on par with the Office suite you grew to love—and pay hundreds of dollars for. That means you get writing software, spreadsheet software, presentation software, and more...and you don't pay a dime! Now you see why so many people are making the switch to Google Apps? Who wouldn't want to pay nothing for good software? If you are interested in learning more about it, or you are ready to make the leap and become a free user, then this guide will show you the ropes and get you started as quickly as possible. Let's get started! This book is not endorsed by Alphabet, Inc.

*The Ridiculously Simple Guide to Google Apps (G Suite)* Scott La Counte,2019-09-11 Chances are you grew up a Word and Office user. Maybe you were a rebel and committed your herd to OpenOffice, or, dare I say, WordPerfect—but for the

majority of people, our lives were loyal to Microsoft. In 2005, a small little startup named Upstartle developed something unheard of at the time: a web-based word processor called Writely. It pioneered the idea of writing on the “cloud” and changed the way people thought about word processing. Google noticed the little upstart, and in 2006, they acquired the company. The software was abandoned and turned into what everyone knows today as Google Docs. It disrupted the industry—namely, Microsoft’s industry. Today, Google has a whole suite of productivity apps; from documents to spreadsheets, you can do just about anything from the cloud. Microsoft and Apple have each made big attempts to create cloud-based environments of their own for office productivity, but Google pioneered the idea and its collaborative, online environment make it hard to beat. It’s become so feature-rich that many businesses are finding it to be the preferred way to conduct business. If you are thinking about making the switch to Google, or have already made the switch but want to make sure you are using it correctly, then this guide will walk you through it. It will show you all the basic features to make sure you can get up and running as quickly as possible. It covers Google Drive, Google Docs, Google Slides, Google Sheets, and Google Forms. Let’s get started!

*The Educator's Guide to Designing Games and Creative Active-Learning Exercises* Joe Bisz,Victoria L. Mondelli,2023 Every educator's imaginative instincts will be guided by this book's practical design method, which harnesses the power of play for student learning. Teachers from all disciplines and levels can create a full spectrum of engaging exercises through the authors' six accessible ALLURE steps: Ask where to apply the play. List the mental moves. Link the mental moves to the play. Understand how the learning principles operate. Run the activity-game. Evaluate the learner experience. Along with principles from game-based learning pedagogy, readers will explore a framework of original complex mechanic teaching templates, which will help their fledgling instructional activities cross the bridge into fully formed games. Beginners and veterans will find multiple entry points, from adding a single playful element (student roles to discussions) to more elaborate designs (riddles and simulations). They will also learn different levels of producing physical tabletop components (cards, boards, plastic pieces) or light digital options (discussion board riddles, Google Slides games). Born from the authors' extensive experiences running professional development workshops, this guide has been frequently requested by teachers at the secondary school and college levels, librarians, instructional designers, and others caught by the allure of educational games and play. Book Features: Offers hands-on, practical advice about how to be more playful with your students, with a focus on nondigital activities and games. Written in the language of instructional design, so advanced knowledge about games or technology is not required. Provides creative instructional techniques that will boost student engagement for both in-person and online instruction. Includes more than two dozen original illustrations and designs to aid understanding. Addresses the need for accessible, inclusive learning environments.

Creating Slide Shows Ann Truesdell,2020-05-21 Using the AASL Standards Framework for Learners, the Create and Share: Thinking Digitally series provides younger readers with the necessary tools to successfully and safely navigate the digital world. In *Creating Slide Shows*, readers learn how to create engaging and informative slide shows. Activities throughout the book prompt students to think more deeply, be creative, share information and resources, and grow their knowledge. Book includes a table of contents, glossary, index, author biography, sidebars, and educational matter.

**Stretch Yourself** Fanny Passeport,Caitlin McLemore,2022-08-26 Two award-winning young educators from opposite sides of the globe share their insights to guide teachers on how to take risks and innovate in their daily practice. *Stretch Yourself: A Personalized Journey to Deepen Your Teaching Practice* is chock-full of tools and strategies to show teachers,

especially those new to the profession, how to stretch and innovate in their teaching. Using the metaphor of yoga--with its focus on process and practice--the authors take teachers on a journey of self-reflection and assessment, leading them through three stages: Breathe, Stretch and Meditate. The book covers such topics as developing a sense of self-awareness to achieve excellence and the importance of maintaining balance and persevering in your practice. This book features:

- The unique look and feel of a journal, with space to write and reflect on ideas as you read.
- A self-assessment quiz so you can evaluate your mindset in terms of technology use and innovation.
- Ideas for using tools available in your “edtech toolbox” to improve your teaching practice.
- Highlights of teachers’ and students’ voices through project examples so you can learn from various perspectives.
- Practical activities aligned to ISTE Standards for Educators and the ISTE Standards for Students.

As the authors state, “Only through interacting with content, making mistakes and trying new things can we truly become aware of what there is to learn.”

**Building PowerPoint Templates Step by Step with the Experts** Echo Swinford, Julie Terberg, 2012-09-28 Building PowerPoint Templates Supercharge your PowerPoint® presentations with custom templates and themes! Want to create presentations that are more consistent and cost-effective? Presentations that fully reflect your branding? Then don't settle for Microsoft's "out-of-the-box" templates and themes: create your own! In this easy, hands-on guide, two PowerPoint MVPs teach you every skill and technique you'll need to build the perfect template—from planning and design, through theme building, custom layouts, colors, and deployment. Echo Swinford and Julie Terberg have distilled their immense PowerPoint knowledge into simple, step-by-step techniques you can use right now, whether you're using PowerPoint 2010 or 2007 for Windows, or PowerPoint 2011 for Mac. Well-built templates are the backbone of great presentations—whether building them for your own use or designing for thousands of users, this book will guide you through the process of creating the most effective templates. Important Note: Upgrading from older versions of PowerPoint, such as PowerPoint 2003? Your old templates may no longer work. This book will help you make the transition painlessly! • Plan new templates and themes to maximize their business value for years to come • Understand the differences between templates and themes, and how they work together • Make better choices about color, fonts, and slide layouts • Create efficient templates for individual users, teams, and large organizations • Incorporate Notes and Handout Masters into your presentation templates • Provide example slides and default settings that lead to better presentations • Use Microsoft's little-known Theme Builder to create effects and background styles • Work around hidden quirks in PowerPoint's advanced template and theme features Echo Swinford, a Microsoft PowerPoint MVP since 2000, has been a featured speaker at the Presentatio Summit (formerly PowerPoint Live) since its inception. She is the expert voice and instructor behind PowerPoint 2010 LiveLessons (Video Training), the author of Fixing PowerPoint Annoyances and co-author of The PowerPoint 2007 Complete Makeover Kit. Julie Terberg is a Microsoft PowerPoint MVP and featured speaker at the Presentation Summit. She is the owner of Terberg

Design and has been designing presentations since the mid-1980s. She is co-author of Perfect Medical Presentations. As contributing author for Presentations Magazine, she won awards for her Creative Techniques columns.

*Engaging Virtual Environments* Joanne Ricevuto, Laura McLaughlin, 2023-07-03 In a classroom setting interaction among students is the norm. How do you replicate that informality, spontaneity, and focus online? This book provides you with a framework to think about the different kinds of engagement you want to foster -- whether participation, collaboration, or quick feedback -- and then introduces you to available online tools, some of which may be in your LMS, offers practical tips, and guides you to how make the most of commonly available technologies to achieve your goals. Within the context and progression of a course -- from developing a welcome page, presenting yourself and the purpose of your course, to icebreakers, assignments, and alternative forms of assessment -- the authors introduce you to a range of easy-to-use online tools that they have introduced to the faculty and teachers in their classes, and that foster active learning and student engagement. In doing so they provide a checklist that you can also access and print from the Web, to help you review additional tools from the wide and ever-growing range of tools that are available online and determine whether they are appropriate for what you want to accomplish. This book will help you connect with students, whether you're teaching synchronously or asynchronously, regardless of the devices students may be using; develop community; and introduce you to gamification to add enjoyment and variety to your students' experience of your class. Recognizing that using new tools with confidence requires practice, the authors offer ideas for implementing them in private online spaces. Each chapter concludes with reflection questions that can be addressed individually by the reader or within a learning community to encourage faculty to work together and support each other in virtual teaching and learning. This book addresses the challenge of embracing new models of course offerings to students in the evolving landscape of virtual learning.
