**Evocative Coaching** Bob Tschannen-Moran,Megan Tschannen-Moran,2010-06-18 There?s a lot of conversation about how to make schools better. Unfortunately, the nature of those conversations often makes things worse. Evocative Coaching: Transforming Schools One Conversation at a Time maps out a way to change that. By taking a teacher-centered, no-fault, strengths-based approach to performance improvement, the Evocative Coaching model generates the motivation and movement that enables teachers and schools to achieve desired outcomes and enhance quality of life. Viewed as a dynamic dance, the model is choreographed in four steps ? Story, Empathy, Inquiry, Design ? which are each laid out in its own chapter with powerful illustrative materials and end-of-chapter discussion questions to prompt further reflection. Bringing together the best research and wisdom in educational leadership and professional coaching, authors Bob and Megan Tschannen-Moran have developed a simple yet profound way of facilitating new conversations in schools through Story Listening, Expressing Empathy, Appreciative Inquiry, and Design Thinking. It?s an iterative process that moves beyond old ways of thinking, doing, and being. It?s an inspirational process that reinvigorates the passion for making schools better, one conversation at a time. This happens when coaches: give teachers our full, undivided attention; accept and meet teachers where they are right now, without making them wrong; ask and trust teachers to take charge of their own learning and growth; make sure teachers are talking more than we are; enable teachers to appreciate the positive value of their own experiences; harness the strengths teachers have to meet challenges and overcome obstacles; reframe difficulties and challenges as opportunities to learn and grow; invite teachers to discover possibilities and find answers for themselves; dialogue with teachers regarding their higher purpose for teaching; uncover teachers? natural impulse to engage with colleagues and students; assist teachers to draw up a personal blueprint for professional mastery; support teachers in brainstorming and trying new ways of doing things; maintain an upbeat, energetic, and positive attitude at all times; collaborate with teachers to design and conduct appropriate learning experiments; enable teachers to build supportive environments and teams; use humor to lighten the load; and inspire and challenge teachers to go beyond what they would do alone. Each chapter provides a research-based theory to support the strategies presented, and includes specific suggestions and anecdotes. The Evocative Coaching model makes coaching enjoyable by getting people to focus on what they do best, and it invites larger, more integral conversations so that people talk about their work in the context of other things they care

about. Resting on strong, evidence-based practices, the Evocative Coaching model offers educators the help they need to meet the challenges of increased accountability and expectations. This model can also be used effectively by coaches and leaders in other organizational contexts. Table of Contents: Chapter 1: What Is Evocative Coaching? Chapter 2: Coaching Presence Loop I: The No-Fault Turn Chapter 3: Story Listening Chapter 4: Expressing Empathy Loop II: The Strengths-Building Turn Chapter 5: Appreciative Inquiry Chapter 6: Design Thinking Chapter 7: Aligning Environments Chapter 8: Coaching Conversations Chapter 9: The Reflective Coach To learn more about Evocative Coaching and to sign up for the Evocative Coach Training Program, visit [www.SchoolTransformation.com](http://www.SchoolTransformation.com).

**Communicating for a Change** Andy Stanley, Lane Jones, 2008-08-19 When You Talk, Are People Changed? Whether you speak from the pulpit, podium, or the front of a classroom, you don't need much more than blank stares and faraway looks to tell you you're not connecting. Take heart before your audience takes leave! You can convey your message in the powerful, life-changing way it deserves to be told. An insightful, entertaining parable that's an excellent guide for any speaker, *Communicating for a Change* takes a simple approach to delivering effectively. Join Pastor Ray as he discovers that the secrets to successful speaking are parallel to the lessons a trucker learns on the road. By knowing your destination before you leave (identifying the one basic premise of your message), using your blinkers (making transitions obvious), and implementing five other practical points, you'll drive your message home every time! "Long ago, in a galaxy far, far away..." "Once upon a time..." "In the beginning..." Great stories capture and hold an audience's attention from start to finish. Why should it be any different when you stand up to speak? In *Communicating for a Change*, Andy Stanley and Lane Jones offer a unique strategy for communicators seeking to deliver captivating and practical messages. In this highly creative presentation, the authors unpack seven concepts that will empower you to engage and impact your audience in a way that leaves them wanting more. "Whether you are a senior pastor with weekly teaching responsibilities or a student pastor who has been charged with engaging the hearts and minds of high school students, this book is a must-read." -Bill Hybels, Senior pastor, Willow Creek Community Church "A very practical resource for every biblical communicator who wants to go from good to great." -Ed Young, Senior pastor, Fellowship Church, Grapevine, Texas "To communicate effectively, you have to connect. Andy has been connecting with people for years, and now he's sharing his insights with the rest of us." -Jeff Foxworthy, Comedian *Story Behind the Book* Andy Stanley and Lane Jones are on staff at one of America's largest churches, North Point Community. Leaders of thousands of people, they regularly speak in front of large groups. They also listen to numerous speakers and know the disastrous effects of a poorly delivered message. This book is the result of their efforts to make public speaking—one of the most common fear-inducing activities known to mankind—simple, easy, and even enjoyable, so that God's messages will readily produce the life-changing results they should.

**Critical Race Theory** Norma M. Riccucci, 2022-03-17 This Element explores Critical Race Theory (CRT) and its potential

application to the field of public administration. It proposes specific areas within the field where a CRT framework would help to uncover and rectify structural and institutional racism. This is paramount given the high priority that the field places on social equity, the third pillar of public administration. If there is a desire to achieve social equity and justice, systematic, structural racism needs to be addressed and confronted directly. The Black Lives Matter (BLM) movement is one example of the urgency and significance of applying theories from a variety of disciplines to the study of racism in public administration.

**A Human Algorithm** Flynn Coleman, 2020-10-20 A groundbreaking narrative on the urgency of ethically designed AI and a guidebook to reimagining life in the era of intelligent technology. The Age of Intelligent Machines is upon us, and we are at a reflection point. The proliferation of fast-moving technologies, including forms of artificial intelligence akin to a new species, will cause us to confront profound questions about ourselves. The era of human intellectual superiority is ending, and we need to plan for this monumental shift. *A Human Algorithm: How Artificial Intelligence Is Redefining Who We Are* examines the immense impact intelligent technology will have on humanity. These machines, while challenging our personal beliefs and our socioeconomic world order, also have the potential to transform our health and well-being, alleviate poverty and suffering, and reveal the mysteries of intelligence and consciousness. International human rights attorney Flynn Coleman deftly argues that it is critical that we instill values, ethics, and morals into our robots, algorithms, and other forms of AI. Equally important, we need to develop and implement laws, policies, and oversight mechanisms to protect us from tech's insidious threats. To realize AI's transcendent potential, Coleman advocates for inviting a diverse group of voices to participate in designing our intelligent machines and using our moral imagination to ensure that human rights, empathy, and equity are core principles of emerging technologies. Ultimately, *A Human Algorithm* is a clarion call for building a more humane future and moving conscientiously into a new frontier of our own design. "[Coleman] argues that the algorithms of machine learning--if they are instilled with human ethics and values--could bring about a new era of enlightenment." —San Francisco Chronicle

Storytelling with Data Cole Nussbaumer Knaflic, 2015-11-02 Don't simply show your data—tell a story with it! *Storytelling with Data* teaches you the fundamentals of data visualization and how to communicate effectively with data. You'll discover the power of storytelling and the way to make data a pivotal point in your story. The lessons in this illuminative text are grounded in theory, but made accessible through numerous real-world examples—ready for immediate application to your next graph or presentation. Storytelling is not an inherent skill, especially when it comes to data visualization, and the tools at our disposal don't make it any easier. This book demonstrates how to go beyond conventional tools to reach the root of your data, and how to use your data to create an engaging, informative, compelling story. Specifically, you'll learn how to: Understand the importance of context and audience Determine the appropriate type of graph for your situation Recognize and eliminate the clutter clouding your information Direct your audience's attention to the most important parts of your data

Think like a designer and utilize concepts of design in data visualization Leverage the power of storytelling to help your message resonate with your audience Together, the lessons in this book will help you turn your data into high impact visual stories that stick with your audience. Rid your world of ineffective graphs, one exploding 3D pie chart at a time. There is a story in your data—Storytelling with Data will give you the skills and power to tell it!

The Circus Train Amita Parikh, 2023 When all is lost, how do you find the courage to keep moving forward? 1938. Lena Papadopoulos has never quite found her place within the circus, even as the daughter of the extraordinary headlining illusionist, Theo. Brilliant and curious, Lena--who uses a wheelchair after a childhood bout with polio--yearns for the real-world magic of science and medicine, her mind stronger than the limitations placed on her by society. Then her unconventional life takes an exciting turn when she rescues Alexandre, an orphan with his own secrets and a mysterious past. As World War II escalates around them, their friendship blossoms into something deeper while Alexandre trains as the illusionists apprentice. But when Theo and Alexandre are arrested and made to perform in a town for Jews set up by the Nazis, Lena is separated from everything she knows. Forced to make her own way, Lena must confront her doubts and dare to believe in the impossible--herself--
