Each March, millions of Americans fill out their bracket in the hopes of correctly predicting the future. Yet, there is no true Madness without the oft-debated question about what teams should be seeded where—from the Power-5 Blue Blood with some early season stumbles on their resume to the mid-major that rampaged through their less competitive conference season—and the inventor of Bracketology himself, Joe Lunardi, now reveals the mystery and science behind the legend. While going in depth on his ever-evolving predictive formula, Lunardi compares great teams from different eras with intriguing results, talks to the biggest names in college basketball about their perception of Bracketology (both good and bad), and looks ahead to the future of the sport and how Bracketology will help shape the conversation. This fascinating book is a must-read for college hoops fans and anyone who has aspired to win their yearly office pool.

Cinderella Michael Litos, 2007 The NCAA tournament has always been an enormous spotlight for the underdog. Bracket-clenching fans root for long shots to upset the elite squads and score an unexpected win on their tournament sheet. If they picked them, that is. And normally that is all the fans expect or two incredible upsets. But these days, the underdogs are breaking through. *Cinderella* is an inside look at the NCAA's mid-major basketball programs, which fight for their shot to battle the elite teams for the national championship. The rise of mid-majors has been one of the most thrilling sports stories in recent years, and it is only getting bigger. Michael Litos spent the 2005-06 season on the frontlines of the Colonial Athletic Association, home of such mid-major standouts as Old Dominion, Hofstra, VCU and George Mason. With complete access to coaches and players, he found incredible tales of pressure and passion. He saw coaches and players struggling to put together a championship drive in spite of uncompromising schedules and half-filled arenas. And he was there when the ultimate underdog turned the world of college basketball upside-down: George Mason's historic run to the Final Four. In what was dubbed "The Year of the Mid-Major," *Cinderella* delivers the ultimate look at what it means to be an underdog and how the sport of college basketball is being transformed. In the last great league of amateur athletes, this is the story of those who play for the love of the game and the thrill of achieving the unbelievable. Michael Litos spent the first eight years of his career as a magazine writer and editor for several sports and sports memorabilia titles with Landmark Communications. He has interviewed sports celebrities from Mickey Mantle to Alex Rodriguez to Brett Favre.

Jayhawker Andrew Malan Milward, 2019-10-21 Wars ravage Iraq and Afghanistan. An earthquake devastates Haiti. The economy is in crisis and America is in the death grip of partisan politics. But what really, really gets you down? Your college basketball team loses a key game. It kind of makes a person wonder—first, of course, about his priorities, but then, inevitably, about the nature of such an obsession, one clearly shared with millions of sports fans spanning the United States. In a book that begins with one fan's passion for a game, Andrew Malan Milward takes a deep dive into sports culture, team loyalty, and a shared sense of belonging—and what these have to do with character, home, and history. At the University of Kansas—where the inventor of the sport coached its first team—basketball is a religion, and Milward is a devoted follower with a faith that has grown despite time and distance. *Jayhawker*, his first venture into nonfiction, bears the marks of the accomplished storyteller. Sharply observed, deftly written, and often as dramatic as its subject, the book pairs personal memoir with cultural history to conduct us from the world of the athlete to the literary life, from competition to camaraderie, from the history of the game to the game as a reflection of American history at its darkest hour and in its shining moments. A journey through one man's obsession with basketball, *Jayhawker: On History, Home, and Basketball* tells a quintessential American story.

The Road to J.O.Y. Scott Drew,2022-05-03 Scott Drew, head basketball coach of the NCAA National Championship-winning Baylor Bears, rebuilt a program mired in scandal by instilling a culture of putting Jesus first. *The Road to J.O.Y.* is packed with leadership and coaching lessons that can equip any leader to make their team a championship team. When Drew accepted the head coaching position at Baylor in 2003, the job was arguably the worst in all of college sports. The men's basketball team had been disgraced by scandal: one player murdered a teammate, and the head coach who lied about the

details tried to conceal illegal cash payments to his players, including a false allegation that the murdered player had been dealing drugs. It was an unprecedented story and a national embarrassment. Still, Coach Drew had a confident vision of what the program could be, even in the face of such adversity, and he guided his team to the pinnacle of success—Baylor’s first National Championship—while leading with, and living out, his faith. *The Road to J.O.Y.* shares: Biblical principles that have helped Coach Scott Drew lead well through challenging times An insider’s look at the others-first culture that spurred Baylor’s rebound Coach’s wisdom for investing in others and creating a successful organization The leadership lessons Drew has learned from growing up in a famous basketball family and years of coaching How faith is the foundation for everything Drew does With equal parts inspirational memoir and personal and professional growth, *The Road to J.O.Y.* is perfect for anyone who is looking to better live out their faith, lead a team, achieve a goal, or mentor others.

Designing the New American University Michael M. Crow, William B. Dabars, 2015-03-15 A radical blueprint for reinventing American higher education. America’s research universities consistently dominate global rankings but may be entrenched in a model that no longer accomplishes their purposes. With their multiple roles of discovery, teaching, and public service, these institutions represent the gold standard in American higher education, but their evolution since the nineteenth century has been only incremental. The need for a new and complementary model that offers broader accessibility to an academic platform underpinned by knowledge production is critical to our well-being and economic competitiveness. Michael M. Crow, president of Arizona State University and an outspoken advocate for reinventing the public research university, conceived the New American University model when he moved from Columbia University to Arizona State in 2002. Following a comprehensive reconceptualization spanning more than a decade, ASU has emerged as an international academic and research powerhouse that serves as the foundational prototype for the new model. Crow has led the transformation of ASU into an egalitarian institution committed to academic excellence, inclusiveness to a broad demographic, and maximum societal impact. In *Designing the New American University*, Crow and coauthor William B. Dabars—a historian whose research focus is the American research university—examine the emergence of this set of institutions and the imperative for the new model, the tenets of which may be adapted by colleges and universities, both public and private. Through institutional innovation, say Crow and Dabars, universities are apt to realize unique and differentiated identities, which maximize their potential to generate the ideas, products, and processes that impact quality of life, standard of living, and national economic competitiveness. *Designing the New American University* will ignite a national discussion about the future evolution of the American research university.
