Farewell to the Muse Whitney Chadwick,2021-08-31 A fascinating examination of the ambitions and friendships of a talented group of midcentury women artists Farewell to the Muse documents what it meant to be young, ambitious, and female in the context of an avant-garde movement defined by celebrated men whose backgrounds were often quite different

from those of their younger lovers and companions. Focusing on the 1930s, 1940s, and 1950s, Whitney Chadwick charts five female friendships among the Surrealists to show how Surrealism, female friendship, and the experiences of war, loss, and trauma shaped individual women's transitions from someone else's muse to mature artists in their own right. Her vivid account includes the fascinating story of Claude Cahun and Suzanne Malherbe in occupied Jersey, as well as the experiences of Lee Miller and Valentine Penrose at the front line. Chadwick draws on personal correspondence between women, including the extraordinary letters between Leonora Carrington and Leonor Fini during the months following the arrest and imprisonment of Carrington's lover Max Ernst and the letter Frida Kahlo shared with her friend and lover Jacqueline Lamba years after it was written in the late 1930s. This history brings a new perspective to the political context of Surrealism as well as fresh insights on the vital importance of female friendship to its progress.

This genuine exchange provides a window into traditions that may be different from our own as well as a mirror reflecting our common experiences. Inspired by his own travels, Matt Lamothe transports readers across the globe and back with this luminous and thoughtful picture book.

**The Art of Gathering** Priya Parker,2018-05-15 We spend our lives gathering - first in classrooms and then in meetings, weddings, conferences and away days. Yet so many of us spend this time in underwhelming moments that fail to engage us, inspire us, or connect us. We've all sat in meetings where people talk past each other or go through the motions and others which galvanize a team and remind everyone why they first took the job. We've been to weddings that were deeply moving and others that were run-of-the-mill and simply faded away. Why do some moments take off and others fizzle? What's the difference between the gatherings that inspire you and the ones that don't? In *The Art of Gathering*, Priya Parker gets to the heart of these questions and reveals how to design a transformative gathering. An expert on organizing successful gatherings whether in conference centres or her living room, Parker shows us how to create moving, magical, mind-changing experiences - even in spaces where we've come to expect little.

[Friendships Don't Just Happen!](#) Shasta Nelson,2013-02-12 This essential go-to guide reveals how women can enhance their lives by creating valuable friendships in today's busy, mobile world, from nationally recognized friendship expert and CEO of [GirlFriendCircles.com](#). Every woman is searching for a happier, healthier, more fulfilling life. Many realize the significant role that an intimate, tightly knit circle of friends plays in creating a more fulfilling life, but with hectic schedules, frequent moves, and life changes, it's more important than ever for women to establish natural, meaningful friendships that will contribute to their overall wellbeing. In *Friendships Don't Just Happen!*, Shasta Nelson, friendship expert and CEO of [GirlFriendCircles.com](#), reveals the most important proven steps, processes, and secrets vital to establishing the five different levels of friendships, or *Circles of Connectedness*, that women—no matter their age or relationship status—are longing for in

today's stressful and mobile culture. This revolutionary, engaging guide will also benefit women who already feel rooted to fabulous friends, with insightful principles that will help them maintain and enhance their current friendships. Full of practical how-to tips, fun activities, guiding questions, and step-by-step instructions, *Friendships Don't Just Happen!* highlights several areas of developing lasting friendships, teaching women how to: Evaluate their current circle of friends Recognize what types of friends they are seeking based on career, interests, location, and relationship status Create a prioritized friendship action plan Find extraordinary friends—where to look and how to approach them Take initiative to jumpstart friendships and face fears of rejection Establish “frientimacy,” trust, and happiness through conversation and activities Maintain meaningful friendships and determine which ones are worthwhile Excerpt from *Friendships Don't Just Happen*: There is a lie out there that real friendship just happens. When I was new to San Francisco eight years ago, I remember standing at a café window on Polk Street watching a group of women inside, huddled around a table laughing. Like the puppy dog at the pound, I looked through the glass, wishing someone would pick me to be theirs. I had a phone full of far-flung friends' phone numbers, but I didn't yet know anyone I could just sit and laugh with in a café. It hit me how very hard the friendship process is. I'm an outgoing, socially comfortable woman with a long line of good friendships behind me. And yet I stood there feeling very lonely. And insecure. And exhausted at just the idea of how far I was from that reality. I knew I couldn't just walk in there and introduce myself to them. “Hi! You look like fun women, can I join you?” I would have been met with stares of pity. No one wants to seem desperate, even if we are. We don't have platonic pick-up lines memorized. Flirting for friends seems creepy. Asking for her phone number like we're going to call her up for a Saturday night date is just plain weird. All the batting of my eyelashes wasn't going to send the right signals. And so I turned away from the scene of laughter and walked away. No, unfortunately, friendships don't just happen. We Value Belonging Friendships may not happen automatically, but what we crave about them sure seems to! We all want to belong—that need to be connected to others is an inherent desire. We live our entire lives trying to fit in, be known, attract acceptance, and experience intimacy. We desperately want to have others care about us. This book is about that hunger. And more pointedly, it is about listening to it and learning how to fulfill it.

*Psychodynamic Formulation* Deborah L. Cabaniss, Sabrina Cherry, Carolyn J. Douglas, Ruth Graver, Anna R.

Schwartz,2013-03-22 How do our patients come to be the way they are? What forces shape their conscious and unconscious thoughts and feelings? How can we use this information to best help them? Constructing psychodynamic formulations is one of the best ways for mental health professionals to answer questions like these. It can help clinicians in all mental health settings understand their patients, set treatment goals, choose therapeutic strategies, construct meaningful interventions and conduct treatment. Despite the centrality of psychodynamic formulation to our work with patients, few students are taught how to construct them in a clear systematic way. This book offers students and practitioners from all fields of mental health a clear, practical, operationalized method for constructing psychodynamic formulations, with an emphasis on the following steps: DESCRIBING problems and patterns REVIEWING the developmental history LINKING problems and patterns to history using organizing ideas about development. The unique, up-to-date perspective of this book integrates psychodynamic theories with ideas about the role of genetics, trauma, and early cognitive and emotional difficulties on development to help clinicians develop effective formulations. Psychodynamic Formulation is written in the same clear, concise style of Psychodynamic Psychotherapy: A Clinical Manual (Wiley 2011). It is reader friendly, full of useful examples, eminently practical, suitable for either classroom or individual use, and applicable for all mental health professionals. It can stand alone or be used as a companion volume to the Clinical Manual.
