Let the Children March Monica Clark-Robinson,2018 Coretta Scott King Honor Award for Illustration2019 I couldn't play on the same playground as the white kids. I couldn't go to their schools. I couldn't drink from their water fountains. There were so many things I couldn't do. In 1963 Birmingham, Alabama, thousands of African American children volunteered to march for their civil rights after hearing Dr. Martin Luther King Jr. speak. They protested the laws that kept black people separate from white people. Facing fear, hate, and danger, these children used their voices to change the world. Frank Morrison's emotive oil-on-canvas paintings bring this historical event to life, while Monica Clark-Robinson's moving and poetic words document this remarkable time.

Better Posters Zen Faulkes,2021-05-24 Better posters mean better research. Distilling over a decade of experience from the popular Better Posters blog, Zen Faulkes will help you create a clear and informative conference poster that delivers maximum impact. Academics have used posters to share research for more than five decades, and tens of thousands of posters are presented at conferences every year. Despite the popularity of the format, no in-depth guide has been available on how to create and deliver compelling conference posters. From over-long titles, tiny text and swarms of logos, to bad font choices, chaotic colour schemes and blurry images - it's easy to leave viewers confused about your poster's message. The solution is Better Posters: a comprehensive guide to everything you need to know - from writing a title and submitting an abstract, to designing the poster and finally presenting it in the poster session. Your conference poster will be one of your first research outputs, and the poster session is your first introduction to a professional community. Making a great poster develops the skills to create publications, reports, outreach and teaching materials throughout your career. This book also has material for conference organizers on how to make a better poster session for their attendees.

Madame Saqui Lisa Robinson,2020-03-24 A stunning picture book biography about the tightrope walker who dazzled Paris as she danced across the sky with impeccable balance and unparalleled skill during the French Revolution. In revolutionary France, a girl named Marguerite Lalanne longed to perform above large crowds on a tightrope, just like her acrobatic parents. Sneaking off to the fairgrounds for secret tightrope walking lessons, Marguerite finessed her performance skills, ultimately performing for crowds as a young rope dancer. And eventually, Marguerite would perform as Madame Saqui, waltzing and pirouetting across- and never falling off- countless ropes above adoring crowds. A nouvelle chérie de Paris, Madame Saqui cemented her place in circus history, winning the adoration of the French people and royalty alike, including Emperor Napoleon Bonaparte. This remarkable biography unveils the inspiring story of a trailblazing woman who revolutionized the circus world-- without ever missing a step.

He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Learning on your doorstep: Stimulating writing through creative play outdoors for ages 5-9 Isabel Hopwood-Stephens, 2013-05-07 As the Forest School movement gains popularity among UK educators, teachers are increasingly recognising the benefits of creative outdoor play. But how can busy primary school teachers fit regular, high quality outdoor learning into an already crowded timetable? How can they plan a range of rich, imaginative and creative experiences that build up into full topics? And how can they translate the excitement and engagement that they find outdoors into increased enthusiasm and attainment indoors? Learning on Your Doorstep integrates creative outdoor play with curricular attainment, while increasing the challenge, enjoyment and professional development of the teachers using it. The book presents a series

of topics which channel the children's outdoor experience into writing outcomes to reflect the current Primary Framework for Literacy. Using child-led, kinaesthetic teaching and learning techniques, each topic helps teacher and class build an imaginary world to explore and includes: Session plan tables to enable teachers to easily access relevant information; collaborative activities, games and drama to stimulate discussion; photo-copiable items such as letters, imaginary maps and animal fact jigsaws; optional classroom follow-up activities and a final writing task; tips on how to prepare and resource each session. Guidance on adapting for different abilities and ages is also given, along with curriculum links and pedagogical rationale, to let primary teachers put creative outdoor play at the centre of the primary teaching timetable. The ideas in this book are suitable for implementation in any school environment, using resources commonly found in the stock cupboard or home. All you will need to add is some preparation and imagination!

Innovative Approaches to Teaching Multilingual Students Mary Amanda Stewart, Holly Hansen-Thomas, 2022-12-01 The purpose of this book is to guide teachers to understand theory related to teaching multilingual students and put it into practice in their classrooms. Throughout each chapter, the authors uniquely bring together relevant theory regarding language (e.g. the multilingual turn, second language acquisition, translanguaging) literacy (e.g. reading comprehension, new literacy studies, multimodality), and culture (e.g. funds of knowledge, culturally sustaining pedagogies). The chapter authors (practicing ESL, bilingual, world language, language immersion, and mainstream teachers) share how they are innovatively teaching multilingual students by understanding theory and applying it to their instructional setting. The

audience for this book is teachers of multilingual students who are in the dynamic process of language acquisition. This includes TESOL/ESL, bilingual, language immersion, and world language teachers, as well as mainstream teachers who teach bilingual students—essentially all educators in modern society. The book is of particular interest for teacher education programs since each chapter explains theory and then illustrates exactly how one teacher put that theory into practice in teaching multilingual students.

New Masters of Poster Design John Foster, 2008-04-30 New in Paperback! In much the way that the CD replaced the album, the poster has waned as a messaging vehicle. The poster has now become a postcard and e-mail blast, leaving many to long for the lost age when posters were not only major promotional vehicles, but also artwork worthy of framing. Some of the world's best designers just could not stand idle while the poster fell by the wayside. They turned to the poster for personal expression and as an outlet from more restrictive mediums. This book showcases their breathtaking artwork, which has proven that the poster can still serve as a worthy communications tool. In doing so, they've brought the poster back to prominence. In this book, John Foster has compiled the world's finest new work at the height of this rebirth. There is currently no book on the market that can claim it features a definitive poster collection.

Write This Way Gavin Reid, Jenn Clark, Michelle McIntosh, 2024-02-29 Many children avoid writing for a number of reasons - perhaps they find it tedious or frustrating, or perhaps they have dyslexia or dysgraphia. This structured programme of writing activities and lessons makes writing engaging and accessible for reluctant writers, by encouraging primary teachers and learners to work together to develop children's writing skills. The book covers all aspects of primary school writing, including grammar, sentence development, punctuation, paragraph writing and planning. It also shows teachers how to develop self-sufficiency skills in writing and encourage learner independence. Each section in the book builds on previous skills learned, from word level up to creative writing skills, providing pupils with a complete range of writing tools. The ready-to-use resources for each topic - including mini lessons, discovery tools and activities - offer extensions and adaptations to suit all pupil needs, including fun ideas for multisensory learning, group interventions or to keep pupils learning outside of the classroom. For school staff working with children who find writing challenging, this practical toolkit provides a range of activities based on solid research and hands-on experience that can be incorporated straight into lessons and teaching practices.

Art Therapy for Psychosis Katherine Killick, 2017-02-17 Art Therapy for Psychosis presents innovative theoretical and clinical approaches to psychosis that have developed in the work of expert clinicians from around the world. It draws on insights that have emerged from decades of clinical practice to explain why and how specialised forms of art therapy constitute a particularly appropriate psychotherapeutic approach to psychosis. The contributors present a diverse range of current theoretical perspectives on the subject, derived from the fields of neuroscience, phenomenology and cognitive

analytic theory, as well as from different schools of psychoanalysis. Collectively, they offer insights into the specific potentials of art therapy as a psychotherapeutic approach to psychosis, and describe some of the specialised approaches developed with individuals and with groups over the past 20 years. Throughout the book, the meaning and relevance of art-making as a medium for holding and containing unbearable, unthinkable and unspeakable experiences within the psychotherapeutic setting becomes apparent. Several of the chapters present detailed illustrated case studies which show how making visual images with an appropriately trained art psychotherapist can be a first step on the path into meaningful relatedness. This book offers fresh insights into the nature of psychosis, the challenges encountered by clinicians attempting to work psychotherapeutically with people in psychotic states in different settings, and the potentials of art therapy as an effective treatment approach. It will be essential reading for mental health professionals who work with psychosis, including psychiatrists, psychoanalysts, psychotherapists and arts therapists, and those in training. Full colour versions of the illustrations can be viewed at <http://isps.org/index.php/publications/book-series/publication-photos> Please see p. ix of the book for details of how to access them.
